

**Safety Tips:** Do prep work with craft knives at home. Keep scissors out of reach of children. Keep all glue caps, marker caps and other small items out of reach of children age 3 or under, as they are a choking hazard. Use nontoxic washable markers only. Watch young children when they are using crayons, to be sure they don't put them in their mouths. Have an emergency plan in place in case of injury, ie. personnel trained in First Aid procedures.
